

Wedding Day Questionnaire

Which package is best for you?

All weddings are unique and original in their own way. This questionnaire is design to help you determine which "Wedding Package" you need to capture this special day. It is also a great way to organize the wedding party, important portraits, and create a time-line. After completing the form, click the **"Email Form"** on the last page.

Wedding photograph events schedule:

In order to capture every precious moment of your special day, we need to know more about it. Time and location of each photographed event will help us create a game-plan. Below you will see a breakdown of the types of images captured during these events. Select the events you would like to take place that day. This is only a preliminary outline of the day's events. A new "Wedding Flow Chart" will be created after the initial consultation.

Pre-ceremony Preparations

The bride and groom preparing to walk down the aisle is a popular event to photograph. The photographer has the opportunity to capture those private moments shared with family and loved ones. This is also the only time to photograph the wedding dress still on the hanger.

Yes, this fits my plan.

No, not at this time.

First-look

That WOW moment! The first time the groom will see his bride wearing her beautiful gown. These are the photos you only see in wedding magazines. The bride will sneak up behind her husband to be, and tap him on the shoulder. The emotionally charged anticipation creates a once in a lifetime moment that will never be forgotten. This is also an alternative time for portraits with family and wedding party if you are unable to do them after the ceremony. Please allow at least 30min for this session.

Ceremony

This is it! This is what all the meticulous preparations were for. All your hard work has created a beautifully staged ceremony marking a new chapter in both of your lives. The groom standing at the altar, the glowing bride, and the guest's reactions are the most important images captured on your wedding day.

Yes, this fits my plan.

No, not at this time.

Bride/Groom intimate portraits

Sometimes it's good to get away from it all and spend some time with each other, before heading to the reception. Private intimate portraits are taken away from all the guests. This allows the photographer to capture those candid, beautiful, and loving moments of the bride and groom reconnecting. Some people like to use these shots for "thank your cards" later.

Yes, this fits my plan.

No, not at this time.

Intimate portraits location or idea:

Note: The time necessary for intimate portraits can vary depending on travel time to location and complexity of the session. For example: If there is a private location near the reception we can use, the photo session could only take 15min of your time. But if we are traveling to a location off-site for some quirky in a car, or on a train type of moments, that could take 30min or longer.

- *Park bench*
- *Beach/lake*
- *Main street at night*

Reception

Time to unwind and have some fun. The first dances to the bouquet toss, this final event is loaded with memories and traditions that take place in a blink of an eye. Having a second shooter during this event might be necessary in order capture all the festivities and traditional activities.

Yes, this fits my plan.

No, not at this time.

Post-production

After all the photos are taken it takes time to prepare them and put into a professional package. Depending on the size of the wedding and the number of photographs, it can take anywhere from 8 to 10 weeks to complete the project. Here are some of the things to expect during the process.

- The photographer will take thousands of raw images during the event. Therefore, editing and sorting them will take time. All progress will be conveyed to the client by phone or email
- You will need to create an account on andersondavisphotography.com to access your images
- After finding the best images the photographer will digitally render them by doing the following:
 - Removing blemishes
 - Whitening teeth
 - Airbrushing skin tone
 - Accenting features of the dress
 - Highlighting flowers and decorations
 - Matching color schemes
 - Crafting them to perfection
- Basic edits will be done to the entire batch of images. Image rendering is reserved for a group of images agreed upon by the photographer and client. Any additional rendering will be a separate charge
- The client will have access to online storage of all images
- The clients' friends and family will have access to a public gallery using the provided password
- Clients can also print any images they desire through the online store
- The client can contact Anderson Davis Photography at any (*reasonable*) time during event planning and post production

Helpful tips

We want your wedding photos to be flawless. The photographer will be unobtrusive and ready to capture your special moments. Here are some suggestions for you:

- Avoid glossy lipstick and consider foundation or powder that will reduce the chance of having a shiny face.
- Mineral makeup causes unflattering effects with flash. The minerals have elements in it reflecting light.
- In order to allow for a private photo session of bride and groom, we will need at least half an hour of your time alone with the photographer.
- Be kind to ensure the presence of all the family members required at your wedding photos. Plan for about 5 minutes per photo for shots with fewer than 14 people, about 10 minutes per photo for shots with more than 14 people.

- It always takes some time to gather people together and pose them so that everyone can be seen, etc.
- Before the wedding day, inform anyone you want to be in posed or informal photos where and when they will be needed for pictures.
- Pre-assign a family member or friend who knows the people to be in the pictures to round them up for the photos. Getting people where they need to be for the photos is by far the most time-consuming part of group shots.
- Please, make sure the cutting of the cake occurs within the booking time.
